

# Public Open House Invitation

## Manitoba Capital Region Transportation Master Plan

June 2013

### What's happening?

The Partnership of the Manitoba Capital Region (PMCR) is pleased to present the next round of public open house events as part of the Manitoba Capital Region Transportation Planning Process. The plan will result in a "road map" to guide future transportation decision-making in the Capital Region. Manitobans are encouraged to come out and discuss transportation issues, express their needs and ideas and ultimately participate in shaping the future of the regional transportation network in the Capital Region.

### How can I get involved?

The Open House format will be a drop-in event where you will be able to view information boards, ask questions and provide feedback and opinions. The transportation planning process has included working with key stakeholder organizations and an initial round of open house events, which identified regional transportation issues and considerations.

Based upon feedback from these events, feedback from key stakeholders and our transportation planning analysis we have derived a policy framework, recommendations and priorities to guide transportation system improvements and transportation/land use integration in the Capital Region. To understand issues and concerns with the planning directions for the Transportation Master Plan, we will be hosting two public open house events:

### Open House Information:

**Location:** **Oakbank, Manitoba**

**Date:** **Wednesday, June 19, 2013**

**Venue:** **One Insurance Arena  
1016 Almey Avenue**

**Time:** **4:00 p.m. to 7:00 p.m.**

**Location:** **Stonewall, Manitoba**

**Date:** **Thursday, June 20, 2013**

**Venue:** **Quarry Park Heritage Arts Centre  
166 Main Street**

**Time:** **4:00 p.m. to 7:00 p.m.**

Note • Both events include the same content

## Manitoba Capital Region Transportation Master Plan

June 2013

### What is the planning team hoping to achieve through these events?

We would like to understand your thoughts and opinions on the planning directions put forward through this process. We want to know what works, what doesn't and if we have addressed your ideas and concerns related to all forms of transportation in the Capital Region.

### What is a Transportation Master Plan?

A Transportation Master Plan is a long-range plan for an area which identifies transportation infrastructure requirements for all types of transportation. The planning process analyzes the existing transportation

network use and projected demand based upon population projections, future land uses and transportation trends. The plan will prioritize network improvements staged over a 5, 10 and 20 year time frame. In addition, the plan will provide a framework to guide future development of the transportation system within the Capital Region.
